To Whom It May Concern:

It is my pleasure to write this letter of recommendation for Sarah Bult. She stands strongly in the top 10% of students with whom I have worked in my 34 years at Brigham Young University (BYU). I think you will find in her a model of the ideal employee for any organization.

While at BYU, Sarah was one of those students that we heavily relied upon. We assigned her to multiple productions as an assistant designer, co-designer, and full designer as she progressed in her education, because we knew whatever she was assigned to do, she would complete. If she lacked anything, it was simply confidence in herself, and I feel she has truly found that strength now through the various positions we assigned her.

As one of her key instructors and mentors, I have had the pleasure of watching her steady progress in skills and professional maturity. She is an excellent student, taking lessons from the classroom into immediate application in her practice. She also works well with other students, effectively taking an active role as part of a team both in skill-level and in example. She is a great person to put on a team because she will help bring the entire team to new heights. Other words I would use to describe her include loyal, serious, easy to work with, positive, trustworthy, honest and sincere. She will never say she can do something that she is not capable of doing, and she will always do her best in anything she agrees to take on.

I highly encourage you to look more than once at this candidate. If you are an organization that she has deemed good enough to look at, then she will be a strong player for your team.

Most sincerely,

A handwritten signature in blue ink, appearing to read "Rory Scanlon".
